GRAIN STOCKS EXCEPT CORN AND SORGHUM ABOVE YEAR AGO

Stocks of the four feed grains (corn, oats, barley and sorghum) on April 1, 1970, totaled 116.5 million tons -- slightly more than the 116.0 million tons a year earlier. Increases in oats and barley more than offset declines in corn and sorghums, according to the Crop Reporting Board.

Total stocks of wheat were 7 percent above a year earlier, with durum wheat stocks up 40 percent. Record April 1 soybean holdings were 1 percent above a year ago. Rye stocks were 23 percent above a year earlier, and flaxseed stocks were 80 percent above April 1, 1969.

All wheat in storage April 1, 1970 totaled 1,194 million bushels, 7 percent above a year earlier and the largest for the date since 1964. Farm stocks at 454 million bushels were 2 percent below the record large April 1, 1969 level. Off-farm stocks at 740 million bushels were 14 percent above a year earlier and the largest for the date since 1965. Disappearance from all storage positions during the January-March quarter is indicated at 337 million bushels compared with 233 million a year earlier. Of the total April 1 wheat stocks, the Commodity Credit Corporation owned 168 million bushels and had loans outstanding on 654 million more.

Durum wheat stocks in all positions on April 1, 1970 totaled 95.5 million bushels, 40 percent above a year earlier and the largest April 1 stocks on record since estimates began in 1962. Stocks on farms at 78.9 million bushels were up 56 percent from a year earlier, but off-farm stocks of 16.6 million bushels were down 5 percent. Disappearance during the January-March quarter totaled 15.8 million bushels compared with 17.8 million bushels a year earlier.

Rye stocks in all positions on April 1, 1970 totaled 24.5 million bushels, compared with 20.0 million a year ago and 29.9 million on January 1, 1970. Off-farm stocks at 16.9 million bushels are 20 percent above holdings a year ago and 3 percent above April 1, 1968.

Farm stocks totaled 7.6 million bushels compared with 5.9 million on hand April 1, 1969. Total disappearance during the January-March

quarter was 5.3 million bushels compared with 4.3 million a year earlier. Of the total rye stocks, the Commodity Credit Corporation owned 11.6 million bushels and had loans outstanding on 6.0 million more.

Corn stocks in all storage positions on April 1, 1970 totaled 2,989 million bushels--down 2 percent from a year earlier. Off-farm stocks of 768 million bushels were 6 percent less than a year earlier, but farm holdings at 2,222 million bushels were virtually the same as a year ago. Indicated disappearance from all positions during the past 3 months (January-March) was 1,324 million bushels, compared with 1,192 million bushels a year earlier. Of the total April 1 corn stocks, the Commodity Credit Corporation owned 285 million bushels and had loans outstanding on 749 million more bushels.

Oat stocks in all positions on April 1, 1970 totaled 672 million bushels--22 percent above a year earlier and 51 percent above April 1, 1968. Off-farm stocks totaled 143 million bushels, up sharply from the 109 million a year earlier. Farm holdings were 529 million bushels, compared with 443 million bushels last year--up 19 percent. Disappearance from January through March totaled 212 million bushels, compared with 232 million a year earlier. Of total oat stocks, the Commodity Credit Corporation owned 77 million bushels and had loans outstanding on 219 million more bushels.

Barley in storage April 1, 1970 totaled 327 million bushels, 16 percent above a year earlier, and the largest April stocks on record. Farm holdings, at 193 million bushels, were 5 percent above a year earlier and also a record high. Off-farm stocks at 134 million bushels were 36 percent above April 1, 1969. Disappearance from all storage positions January through March was 93 million bushels, 4 million bushels above a year earlier. Of the total barley stocks, the Commodity Credit Corporation owned nearly 49 million bushels and had loans outstanding on 113 million more bushels.

Sorghum grain stocks on April 1, 1970 totaled 506 million bushels, 7 percent below a year earlier. Farm holdings at 120 million bushels and off-farm holdings at 386 million bushels were each down 7 percent from a year earlier. April 1 stocks indicate January-March disappearance of 186 million bushels, compared with 202 million bushels for the same quarter a year earlier. Of the total sorghum grain stocks, Commodity Credit Corporation owned 170 million bushels, and had loans outstanding on 85 million bushels more.

(Continued from page 2)

Soybean stocks in all storage positions on April 1, 1970 totaled a record 730 million bushels, 1 percent above a year earlier. Off-farm stocks of 523 million bushels were up 16 percent, but farm stocks at 207 million bushels were down 25 percent. Of the total soybean stocks, the Commodity Credit Corporation owned 178 million bushels and had outstanding loans on 234 million more bushels.

Stocks on April 1, 1970 indicate a disappearance during the September-March period of 711 million bushels from a beginning supply of 1,441 million bushels (carryover of 324 million bushels plus 1969 production of 1,117 million bushels). During the past seven months, approximately 420 million bushels were processed for oil and about 255 million bushels were exported.

Flaxseed stocks in all storage positions on April 1, 1970 totaled 28.6 million bushels compared with 15.9 million a year earlier. Farm stocks at 10.9 million bushels were 81 percent greater than on April 1, 1969, and off-farm stocks at 17.8 million bushels were up 79 percent. April 1 stocks indicate a 9 month disappearance of about 17.6 million bushels from a supply of 46.2 million bushels. Reported disappearance for this period include about 10.8 million bushels crushed and 5.7 million exported. Of the total flaxseed stocks, the Commodity Credit Corporation owned 7.7 million bushels and had loans outstanding on an additional 11.9 million.

STOCKS OF GRAINS, April 1970 - 16 - Crop Reporting Board, SRS, USDA
